

**ENGINEERING FLOW.
MEASURING PERFORMANCE.
AUTOMATING PROCESSES.**

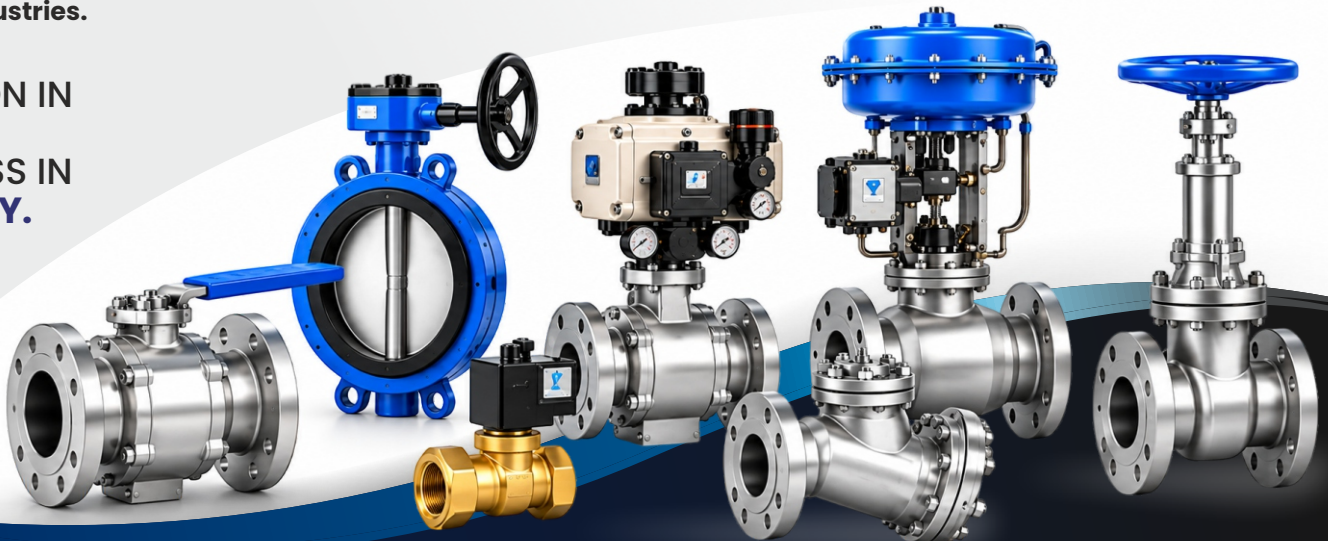

SOLUTIONS THAT KEEP INDUSTRY MOVING

ABOUT FLOWMATRIX

FLOWMATRIX is an industrial flow solutions company delivering reliable technologies for **Flow, Measurement, Control and Automation**. We provide a comprehensive portfolio of **industrial valves, actuators, valve automation and process instrumentation** for critical applications. Our solutions are designed to support **safe, efficient and reliable process operations** across demanding industrial environments. We work with **process industries, EPCs, OEMs and plant operators**, supporting requirements from standard products to engineered solutions. Our expertise spans **flow control, process measurement, valve automation and application-focused engineering**.

We combine **quality products, technical understanding and responsive service** to deliver the right solution for every application. From **plant maintenance and replacement requirements to new projects and process upgrades**, we support customers throughout the product life cycle. Our objective is simple: **improve process performance, enhance operational reliability and reduce unplanned downtime**. With a customer-focused approach and strong industry partnerships, FLOWMATRIX aims to be a **trusted technology partner for modern process industries**.

**PRECISION IN
FLOW.
PROGRESS IN
INDUSTRY.**

INDUSTRIAL VALVES

Ball Valves

- Floating/Trunnion Mounted
- 2/3 Piece Design
- Soft/Metal Seated
- Fire Safe & API Certified

Butterfly Valves

- Wafer/Lug/Double Flanged
- Resilient/Metal Seated
- Manual/Actuated
- Suitable for On/Off & Control

Control Valves

- Globe/Rotary/Cage Guided
- Pneumatic/Electric Actuated
- High Precision Control
- For Process & Utility Applications

Check Valves

- Swing/Lift/Dual Plate
- No Return Flow Protection
- Reliable & Low Maintenance
- Wide Range of Materials

Plug Valve

- Lubricated/Non-Lubricated
- Sleeve/Lined Type
- Quarter Turn Operation
- Suitable for Corrosive Media

Gate Valve

- Rising/Non-Rising Stem
- Solid/Flexible Wedge
- High Pressure & Large Sizes
- For Isolation Applications

Globe Valve

- Straight/Angle/Y-Pattern
- Throttling & On/Off Service
- High Temperature & Pressure
- Wide Material Options

Diaphragm Valves

- Weir/Straight Through Design
- Lined & Unlined
- For Corrosive & Hygienic Media
- Low Maintenance

Ball Valves

- Strainers/Filters/Pressure Regulators
- Steam Traps/Sight Glasses
- Sampling Valves
- Instrumentation & Utility Valves

Butterfly Valves

- PTFE/PFA/Rubber Lined
- For Highly Corrosive Applications
- Ball/Butterfly/Plug/Diaphragm
- Wide Range of Lining Materials

Control Valves

- 3-Way/4-Way
- L-Port/T-Port Design
- Diverting/Mixing Applications
- Manual/Actuated Options

Check Valves

- For Low Temperature Applications
- Extended Bonnet Design
- Suitable up to -196°C
- LNG, LOX, LIN, LAR Applications

From standard valves to engineered solutions we supply valves for every critical application.

SPECIALIZED VALVES & AUTOMATION

Actuators

- Pneumatic/Electric/Hydraulic
- Double Acting/Spring Return
- Rack & Pinion/Scotch Yoke
- For Quarter Turn & Linear Valves

Positioners

- Pneumatic/Electro-Pneumatic
- Smart Positioners (HART/Fieldbus)
- High Accuracy & Reliability
- ATEX/IEC Ex Options

Solenoid Valves

- 2/2, 3/2, 5/2 Way
- Direct/Pilot Operated
- Brass/SS Construction
- For Gas, Liquid & Steam

Safety / Relief Valves (PSV/SRV)

- API 526/ASME Certified
- Spring Loaded
- Steam, Gas & Liquid Service
- Wide Pressure & Size Range

Pharma / Hygienic

- Sanitary/Aseptic Design
- SS 316L, Ra <= 0.8µm
- Diaphragm/Ball/Butterfly/Check
- For Pharma, Biotech & Food Industries

Severe Service

- For High Temperature, High Pressure
- Anti-Cavitation/Anti-Noise Trim
- Erosion & Corrosion Resistant
- Critical Process Applications

OBB/Double Block & Bleed Valves

- Ball/Plug/Gate Type
- Two Isolation Points with Bleed
- For Critical & Hazardous Services
- Widely Used in Oil & Gas, Petrochemical

ESD/Emergency Shutdown Valves

- Pneumatic/Hydraulic/Electric
- Fail-Safe Operation
- SIL Rated Options
- For Onshore, Offshore & Hazardous Areas

Choke Valves

- Adjustable Orifice
- For High Pressure & Abrasive Service
- Oil & Gas, Drilling & Production
- Manual/Hydraulic Actuated

Axial Flow Valves

- Low Pressure Drop
- High Flow Capacity
- For Large Line Sizes
- Power, Water & Process Industries

Custom Valves

- Engineered to Specification
- Special Materials & Design
- For Unique Process Conditions
- Project Based Solutions

Field Instrumentation

- Flow instrument
- Pressure instrument
- Process instrument

PARTNERING INDUSTRIES FOR A BETTER TOMORROW.

THE FLOWMATRIX ADVANTAGE

APPLICATION EXPERTISE

Right product selection for demanding process applications.

QUALITY & RELIABILITY

Trusted products for safe and continuous operations.

COMPLETE SOLUTIONS

Flow, Measurement, Control & Automation under one roof.

TECHNICAL SUPPORT

Practical engineering assistance from selection to execution.

RESPONSIVE SERVICE

Fast communication, reliable delivery and ongoing support.

LONG-TERM PARTNERSHIP

Focussed on your success beyond supply.

INDUSTRIES WE SERVE

CHEMICAL & PETROCHEMICAL

PHARMACEUTICAL

SPECIALTY CHEMICAL

OIL & GAS

POWER

WATER & WASTEWATER

FOOD & BEVERAGE

PROCESS INDUSTRIES
